

SPHINX PARK IMPROVEMENT ASSOCIATION
DUMPSTER RULES

Trash removal is provided to paying SPIA members. This service is intended solely for the purpose of disposing of household garbage; therefore the following guidelines have been established:

1. Only household trash is to be disposed of in the dumpsters.
2. Please keep the gate and dumpster lids closed. If there have been bears in the area, use the pieces of rebar to lock the lids down. If a bear has torn into the trash and/or trash is spread around, take a minute and help pick up the area.
3. Please fill the dumpsters from the back. Cardboard boxes are to be broken down flat. Trash is not to be left outside the dumpster.
4. No construction materials, e.g. lumber, roofing materials, carpet, etc.
5. No furniture, appliances, etc.
6. Do not leave “*free*” stuff outside the dumpsters, we are charged extra to haul these items away.
7. No hazardous materials, remember the fire danger.
8. Please do not use the dumpsters for your *spring cleaning*, get together with your neighbors and make a dump run.
9. Do not dispose of garden debris such as pine needles, slash, etc. The alternative would be to use these materials to help control run off on your property or take them to one of the local slash collection points.
